<b>Amount of Award</b>	9593500.00	<b>Total Amount of Payments to Vendors less than \$25,000/award</b>	70131.55
<b>Award Date</b>	09/24/2009		
<b>Award Description</b>	DNREC's Energy Office was awarded \$9,593,500 for the EECBG (Award No. DE-EE0000775) on September 24, 2009. Of this total, approximately 40 percent is for State projects (\$3.640M) and approximately 60 percent (\$5.460M) will be allocated to smaller municipalities that did not receive direct funding from the Department of Energy. A small amount of remaining funding (approximately 5 percent) will be dedicated to administrative activities necessary to support the distribution of EECBG funds.  DEO proposes that Delaware use the State portion of EECBG funds to help complement programs in the State Energy Program (SEP) ARRA funding proposal (Award

Grant	DE-EE0000775	809855091	2012 / 4	Yes
<p>No. DE-EE0000342) to focus primarily on energy efficiency because of the greater number of associated jobs and the higher return on investment. The SEP also involves some adoption of renewable energy systems. The primary application of this state portion of the EECBG funding will be used as seed capital for an in-house performance contracting account where the State's Division of Facilities Management can draw on funds to make efficiency investments in state buildings and repay the in-house performance contracting account with savings from energy efficiency investments and adoption of renewable energy, thereby enabling a revolving account that can extend beyond the 3 year duration of EECBG. In this way, the one-time ARRA funding will help leverage longer-term investments in State facility upgrades (efficiency first and renewables) in a manner that is consistent with the overall State Energy Program, which includes four planned project activities: home energy efficiency, business, commercial and manufacturing energy efficiency, statewide renewable energy funding, and energy efficiency in state facilities.</p> <p>As required by law, the State allocation dedicated to incorporated entities not receiving direct EECBG dollars (\$5.460M) is proposed to be divided up among the State's smaller municipalities. Approximately \$1.24 million of this local EECBG finding will be allocated non-competitively, based on 2007 U.S. Census Bureau population estimates, in portions ranging from a</p>

maximum award of \$45,000 (slightly less than the default grant size for the larger municipalities) to a minimum award of \$20,000. This should allow all eligible municipalities under this phase of the EECBG to plan projects that would provide positive benefits in their communities and also create jobs.

Under DOE requirements, these smaller municipalities will be required to file applications with the DNREC Energy Office to receive these awards and must use their funds consistent with explicit funding guidelines. The Energy Office will also offer these smaller entities an opportunity to partner with the Delaware Sustainable Energy Utility (SEU) to provide a greater leverage for these limited funds and to provide SEU expertise in implementing projects. Moreover, the state's largest county (New Castle County) has also expressed interest in allowing eligible smaller municipalities from throughout the State the ability to "piggyback" on its existing contract with an energy services company (AMERESCO) that would allow these smaller entities to contract for energy efficiency or renewable energy projects for their public facilities that would normally not be available to these small entities due to the projects' smaller sizes.

Assuming all eligible entities apply for and receive funding, there remains a total of approximately \$4.22M that DNREC proposes be dedicated to a competitive grant program developed by the Delaware Energy Office (DEO) for local governments using the same eligible activities list defined in

the EECBG program description. DEO will also look to the SEU as other means of leveraging these dollars and in providing the financial and technical expertise necessary to cost effectively expend these dollars.

### Project Information

Project Name or Project/ Program Title	Energy Efficiency and Conservation Block Grant	Activity Codes (NAICS or NTEE-NPC) (up to 10)
Quarterly Activities/ Project Description	DE&C staff worked with municipalities to closeout all grantees and complete invoicing and reporting requirements. DNREC will be de-obligating \$181,826 of its EECBG award funds and they can be returned to the Treasury.
